## THE MAKING OF A CANADIAN HOCKEY LEGEND

### SETTING THE STAGE

The DR brand is deeply rooted in Canada's national sport, and has evolved hand in hand with the game. The company had its beginnings in the 1920's, at the same time as the start of the modern age of hockey. This was the era in which the holy grail "The Stanley Cup" changed from being awarded to the best amateur hockey team to the best professional team. Our hometown Montreal Maroons won their second cup of the professional era. Canada beat the US for the first ever Olympic Gold medal in hockey at the 1928 Winter Games in Chamonix, France.

### OUR HISTORY, OUR GAME

DR has always been a Canadian-owned family company, with a history of family-oriented core values, a strong work ethic and a passion for the sport. Founded in

Montreal and operated by avid sports enthusiast Rodolphe Daigneault, the company remained a family-run business for three generations. DR has been owned since 2006 by Lanctôt, a well-established family-run enterprise specialized in designing, manufacturing and distributing brand-name sports equipment, clothing and optical lines.

From our beginnings on Hermine Street to today, we have maintained a consistent commitment to producing technically innovative and attractive hockey, baseball and ringuette equipment designed for maximum performance and protection. Throughout the years, millions of young Canadian boys and girls have worn and used DR equipment to play the game. Some have even become legends among us.

We've spent 84 years making top-quality hockey equipment, and to this

day we are still driven by a single goal: to provide players of every age and caliber with the best gear possible so that they can enjoy their game. Played informally between friends, in an organized amateur league, or in a competitive or professional organization, the right equipment makes all the difference. We know: it's our game.

### IT COMES FROM WITHIN

Today, hockey is played in many parts of the world, and DR's renown as a respected manufacturer of top-quality equipment makes us a true ambassador of Canadian know-how and culture. Simply put, our love for Canada's favourite sport comes from within. With more than 80 years of remaining true to our game, the DR family invites you to share in the passion and excitement of hockey.
